Acceler™ Distal Access Catheter

Features & Benefits

Excellent Passability

Ultra soft distal segment, excellent trackability, more closer to lesion;

Super Large Bore

0.088" super large bore, complete ingestion and distal flow reversal, reduced risk of clot fragment, higher FPE;

Enhanced Support

Composite structure of coil and braid, gradient hardness, stable support;

Transradial Approach

Specicalized for transradial approach, reduced hospital stays;

Competent in multiple clinical use

Versatile in thrombectomy, embolization, stenosis clinial technique.
